THE FALL IN SILVER.

The Salt Lake Tribune in regard to the recent desline in sil-

By adding to Ler coinage and her absorbtion of silver some thirty million dollars a year, that cannot help, when perservered in for a short time, but to make a scarcity and a demand in other places, which will have to bring the price of silver up to a par with gold. As it is, the Treasury Department, according to the terms of the law, on the 13th, day of Ju y, had to begin the purchase of 4,500,000 ounces of silver the same in small or large quantimonthly. By the terms of that same law it has to pay for that silver in Treasury notes of from one dellar to one thousand dollars in value. The call was so sudden I2 1-2 cents each at Loo'bourthat it was impossible to have the row's, Ormsby block. engraving of the smaller notes made in time. Hence, all the purchases thus far have been made in five hundred and one thousand dollar notes. These notes have been turned back into the Treasury, and the small notes have not gone into circulation among the people. This will be remedied probably within the next thirty days, and then the payments will be made in notes of small denominations, and they MONDAY AND TUESDAY, Oct will go out among the people and become part of the circulating First appearance of the Original medium of the country. Then, in anticipation of the passage of the Silver bili, we have no doubt that SIGNOR -:- BOSCO, the brokers of New York and the bankers bought up the silver as fast as it came into the market; and when the law began to take effect there was a supply of eight or ten, or perhaps twelve million dollars on hand. It will take a few weeks to get all that ad justed; but it cannot be very long and according to all the figures of the experts on both sides of the sea the supply ought to be ab sorbed by the first day of December, and silver ought to gravitate up to its old place.

GOVERNMENT BOND.

The Manhattan for a limited period will offer the residents of Nevada a Bond Combining Insurance and investment that is in reach of all and which every healthy ablebodied man in the State should possess-for the protection of himself and family.

In explanation read what follows: Suppose a special agent of the U. S Treasury Department should call on you today and say:

The Government would like to sell you bonds for any amount hetween \$1,000 and \$30,000 and if it is not convenient for you to make the investment at once, we will a,low you to pay for the bonds in

Ten Equal Annual Installments.

And, suppose, in addition to this, the Government, wishing to make this the most desirable investment in the world, should stipulate in the bond, not only to pay them at the end of the term, but in case of your previous death, to pay them to your family and AT THE SAME TIME RELEASE YOUR FAMILY ERO I PAYING ANY FURTHER
